# OS8.2 RELEASE NOTES

Version 8.2.17.3

AU3x5

## Changes Since 8.2.17

### New Features

- OS-11307: @brightsign/audio now handles encoded URLs correctly.
- The audio player now supports seeking to an arbitrary position.
- OS-11268: The audio player no longer risks crashing when being repeatedly told to play or stop.
- BCN-7945: Wi-Fi only players no longer lose network connection after re-provisioning.
