BrightAuthor:connected **RELEASE** **NOTES**

Version 1.6.16

BrightSign, LLC. 983-A University Ave., Los Gatos, CA 95032 | 408-852-9263 | www.brightsign.biz

Changes Since v1.6.6

New Features

- BCN-4252: Added an option to change widget and asset icon sizes.
- BCN-8465: New system variable BrightAuthorVersion added.
- BCN-8506 BETA: Added cellular modem setup options.

Improvements

- BCN-7591: Timeout event behavior now parallels BrightAuthor
- BCN-6863: Advanced Commands View behavior is now parallel between State and Event Properties.
- BCN-8432: Change Remote Snapshot now takes effect immediately instead of next restart.
- BCN-8690: Improved communication between autorun and supervisor.

Bug Fixes

- BCN-8479, BCN-7778: Imported presentations will now properly populate Super States.
- BCN-8360: Send Serial bytes will no longer cause a runtime error.
- BCN-8469: Selecting folders that BrightAuthor:connected cannot access now results in a warning message.
- BCN-8569: Fixed a crash caused by the autorun when presented with port parameters.
- BCN-8570: Fixed an issue that could cause imported presentations from operating correctly.
